

Lake Jackson Cornerstone Church of the Nazarene

by Duane and Jean Morford

We have been working at Cornerstone Church of the Nazarene near Lake Jackson, TX since the first of November. Lake Jackson is about 40 miles southwest of Houston. The church is located on 28 acres that were formerly part of a country club. The facility has a tennis court, basketball goal, disc golf course and a prayer walk which are all open to the public.

Our duties here are varied. Jean has been painting the iron fence and gate at the front of the property. Painting in this rainy high humidity area becomes a stop and start project. She has been assisting the church office staff in between the good painting days and has helped prepare the Wednesday evening meals.

The majority of Duane's time has been spent on landscape duties such as trimming, edging, picking up limbs and Spanish moss that has fallen from the trees, mending fences, repairing and painting park benches and cleaning sidewalks and concrete surfaces.

Cornerstone is a beautiful and enjoyable workplace. The church has welcomed us and has included us as a part of their church family and activities. We will continue our work here until the end of the March project
